^{IT} Molto più di una semplice serie di tavoli, Naca è un'esperienza estetica che cattura l'essenza del contemporaneo. Il fulcro di ogni tavolo risiede nelle gambe, non semplice elemento strutturale, ma cuore dell'intero progetto. Queste, ottenute tramite l'estrusione e la pressofusione dell'alluminio, determinano l'aspetto e le dimensioni di ogni tavolo.

La variazione nell'orientamento delle gambe genera una gamma diversificata di prodotti che, unita alla possibilità di personalizzazione attraverso piani disponibili in varie forme e materiali, offre un'ampia gamma di opzioni per l'adattamento alle esigenze individuali. Una struttura di partenza semplice e liscia, pronta ad essere arricchita e personalizzata secondo i gusti personali.

^{EN} Much more than a simple series of tables, Naca is an aesthetic experience which captures the essence of what is contemporary. The focus point of each table are its legs, which are not merely a structural element but instead the very heart of the project. They are made from extruded die cast aluminium and define the appearance and size of each table. The variation in the arrangement of the legs generates a diversified range of products which, combined with the customisation possibilities thanks to various top shapes and materials, offers an extensive range of options to adapt to individual requirements. A smooth and simple starting block, ready to be supplemented and customised according to personal taste.
