

SOLARIS EVO

Design Alberto Lievore

^{IT} Solaris Evo è un invito al relax e alla contemplazione negli spazi aperti. Il suo nome, ispirato al famoso film di Tarkovskij, ne ripropone le suggestioni, l'immersione in una natura immortalata nel suo lento scorrere. Quella natura che nel film è fluida, movimentata, onirica ha fornito lo spunto concettuale per una collezione che si propone come territorio di confine e di interscambio fra interno ed esterno, fra individuo e spazio. Un vero salotto all'aria aperta pensato per i contesti sia residenziali che contract dove l'accoglienza delle forme, ammorbidita dagli ampi cuscini, riesce a caratterizzare l'ambiente senza mai sovrastarlo; l'illusione data dall'effetto di sospensione ne accresce la poetica magia. In Solaris, il vasto oceano che ricopre la superficie del pianeta interagisce con coloro che lo abitano; così, i moduli di questa collezione – componibili liberamente – si prestano al dialogo creativo con l'ambiente che li accoglie.

^{EN} Solaris Evo is an invitation to relax and contemplate the great outdoors. Its name draws its inspiration from the famous film by Tarkovskij, replicating its suggestions, the immersion in nature captured as time slowly goes by. Nature, which in the film is smooth, animated, dreamlike, triggered the idea for a collection which aims to be a land on the border, where indoors and outdoors liaise, where individuals interact with space. A veritable open-air sitting room devised for both residential and contract settings, where the welcoming shapes, softened by the generous cushions, manages to distinguish the setting without being overbearing; the illusion provided by the suspension effect simply enhances its poetical magic. In Solaris, the vast ocean which covers the surface of the planet interacts with its inhabitants; similarly, the modules of this collection - which can be combined freely - lend themselves to the creative dialogue with the surrounding environment.
